Across all types of curriculum, we impact more than 2500 individuals annually, including social sector leaders, entrepreneurs, helping professionals and knowledge seekers of all ages. These educational opportunities have tremendous influence in North America and beyond.

More than ever, we need places to build our capacity as better global citizens. With your support, Hollyhock can exist for future generations as a place that nurtures educational diversity, consciousness and wisdom studies, social dialogue and sustainable solutions.

## DONATING SECURITIES

A [gift of publicly listed securities](#) is an innovative and creative way to make a charitable gift. You can often help fund at a larger level than you might otherwise be able to do.

Securities can include stocks, bonds, bills, warrants and mutual funds. Gifts of publicly listed securities are becoming increasingly popular, as federal and provincial incentives have changed to enhance donations of publicly listed securities that appreciate in value.

Very favourable treatment of capital gains can enable significant donation of securities to a charity.

Most options offer favourable income and tax benefits.

“Hollyhock has provided essential support to me as a leader. For the first time in my education I encountered engaging, hands-on learning in an environment that inspired and nourished, and in the company of open-minded, intelligent and supportive people. At Hollyhock I’ve developed my skills in facilitation, government relations, strategic planning, personal leadership and coalition building, to name a few. Above all, my experiences at Hollyhock, made possible only through scholarship support, have been an appropriate blending of head and heart. I’ve learned that hard skills will only get you so far in creating and sustaining social change.”
